

Teach Photoshop, Without Building It Yourself

A complete, ready-to-deliver beginner curriculum that takes learners from "I've never opened Photoshop" to a presented portfolio piece in eight three-hour sessions. Every session ends with a finished, exported piece. Everything you need to walk in and teach: guides, slides, labs, practice files, workbooks, and answer keys.

INSTRUCTIONAL HOURS

ONE MODULE, ONE SESSION, ONE FINISHED PIECE

SESSION	MODULE	LEARNERS LEAVE WITH
S1	0 · Your First Win	One photo, fixed and exported
S2	1 · Foundations	A messy photo cleaned up
S3	2 · Light & Color	A flat photo graded and alive
S4	3 · Retouching	A natural portrait retouch
S5	4 · Compositing	A believable two-image composite
S6	5 · Design & Type	A finished poster
S7	6 · AI & Speed	A generative edit plus an automated batch
S8	7 · Capstone	A self-directed portfolio piece, presented

WHAT YOU GET

- ◆ FOR EVERY MODULE (×8)

 - ◆ **Facilitator guide:** timing, live-demo scripts, the beginner mistakes to pre-empt, checks for understanding
 - ◆ **Participant workbook:** objectives, worked
- ◆ ACROSS THE KIT

 - ◆ **8-session syllabus** (3 hours each) in web and print formats: weekly, twice-weekly, or a 4-day intensive
 - ◆ **Student setup guide**, including what photos to bring to each session

examples, write-in exercises, self-check quizzes

- ◆ **Answer key:** every quiz answered and explained, plus lab reference notes
- ◆ **Slide deck:** a self-contained projector deck (no software to install)
- ◆ **Labs with practice files:** generated, royalty-free images you can hand straight to learners

- ◆ **Final capstone assessment:** six brief options, a 9-row rubric built on the course's own critique questions, a peer-critique protocol, and a scoring sheet
- ◆ The live course website, with 22 lessons and a **25-card Recipes library** learners keep using after class
- ◆ **Print-ready PDFs** throughout: hand out or project

WHY INSTRUCTORS CHOOSE IT

- ◆ **Minimal prep to teach.** The facilitator guide scripts each lesson: timing, demos, and the exact beginner mistakes to head off. Walk in and deliver.
- ◆ **Beginners actually finish.** A first win in Session 1, then a finished, exported piece every session, so learners never leave with half a project. The capstone gives them a portfolio piece to show.
- ◆ **The professional habits, from day one.** Non-destructive editing, masks, and Smart Objects run through every module, and each core idea comes back at greater depth, so nothing has to be unlearned.
- ◆ **Current and responsible.** Generative Fill and Expand are taught as tools in service of craft, with prompts, limits, ethics, and disclosure. Retouching is taught with consent and restraint.
- ◆ **No image licensing headaches.** Labs use generated practice files and learners' own photos, so there's no stock to license for your class.
- ◆ **Flexible delivery.** Weekly for eight weeks, twice a week, or a 4-day intensive. Community college, continuing ed, corporate L&D, library, or solo trainer.

WHO IT'S FOR

Independent trainers

Community colleges & CE

Corporate L&D & marketing teams

Libraries & makerspaces

Workforce & career programs

Photography clubs

LICENSE & PRICING

SOLO

\$499 one-time

One named instructor · unlimited students

- ◆ Full kit, all 8 modules
- ◆ Print the workbook for your class
- ◆ Perpetual license

MOST POPULAR

ORGANIZATION

\$1,997 one-time

Multiple instructors at one org

- ◆ Everything in Solo
- ◆ Unlimited instructors, one organization
- ◆ Best value per seat

WHITE-LABEL

\$4,997 one-time

Multiple instructors · rebrand & edit

- ◆ Everything in Organization
- ◆ Add your own branding
- ◆ Edit & adapt the materials

Optional content-updates subscription: \$149/yr, recommended for a course that tracks Photoshop's fast-moving generative tools. Volume and education pricing available. Learners need their own Photoshop access (Adobe plan, not included). See

[LICENSE.md](#) for full terms.
